

# East Haven Business Guide 2011

The Department of Economic Development  
Alexander A. Sulpasso  
Economic Development Coordinator  
203.466.3587  
[Sulpasso.edc@gmail.com](mailto:Sulpasso.edc@gmail.com)

This business guide will establish a general diagram for business planning on establishing, relocating, and/or expanding within the Town of East Haven.

Businesses are requested to:

Contact the Economic Development Coordinator, who will:

1. Go over a business plan (if the individual has one), Assist the establishment of a business plan, and offer general business consulting.
2. Discuss location, where you are planning to go, pro & cons. East Haven has a diverse (residential, commercial, industrial) community which can be resistant to some projects.
3. Assist individuals with navigating other Town Departments.
4. Inform individuals about any incentives (if they qualify), that The Town of East Haven can offer.

The Economic Development Coordinator and The Mayor are meeting with new businesses, expanding businesses, and businesses relocating to the Town of East Haven.

1. Meetings are being scheduled, through the Economic Development Coordinator, on a "case-by-case" basis.
2. Due to the over whelming demand, it is impossible and irresponsible to establish a "blanketed" policy on individual business needs.
  - a. The East Haven Business Community is rich and diverse. To address the individual businesses needs, our "case-by-case" policy is the most efficient method of conveyance.

We are here to help and ensure, the best that we can, your business survives these trying economic times.
