

## **Confidential School Tip Line**

The mission of the school tip line is to head off any and all potential violence, vandalism and any other act would interrupt or interfere with the education process of all students in and around our community.

Most of the time a student is not willing to alert a teacher with information about something he or she has heard in fear of being labeled a “rat” by their peers. Now, if a student comes across information he or she feels needs investigation by police or school officials, they can call the confidential school tip line anytime, day or night, 24-7. All calls will be investigated.

The following is a limited list of when the student should alert the tip line.

1. When you feel there may be potential danger
2. Overhear of a possible fight after school
3. Know of any drug activity on school grounds
4. Know of or see someone carrying a weapon
5. Information on an upcoming underage drinking party

This is a limited list; use the tip line whenever you feel there is potential danger or drug activity.

You can also alert the tip line of any information in other towns, which will be passed to their authorities.

Please note: you do not have to leave your name. All calls to the tip line will be investigated on the **NEXT BUSINESS DAY.**

**East Haven Police  
24 hour tip line number  
468-3389**

**Note: this is not an emergency number.  
In an emergency, call 911**
