Mr. Gryval asked how long the process will take for NH DOT to grant the request. Mr. Mulholland stated that the process will take a little bit of time but that once it’s approved the town will have to put the signage up. Mr. Gryval expressed concerns to update residents because of the restrictions.

Discuss Creation of an Insurance Study Committee
Mr. Gryval stated that he reviewed the document for the committee formation and had a few suggestions for changes. He stated that he does not think it’s a good idea to say that the benefits that their employees get are unsustainable. He stated that he does not want everyone to think that benefits are going to get cut. He stated that they are going to have to get creative with getting the employees their benefits.

Mr. Gryval stated that they talked about looking down the road for when Obamacare takes full effect in 2018. He stated that he is not sure that they want to look into anything for 2015 with the idea that things would definitely change in 2015. He also stated that he thinks that they should have a non-managerial person from each of the four departments so that they can inform back to their colleagues and let everyone know what is going on.

Mr. Mulholland stated that the Select Board should pick who those representatives for the departments would be. He stated that this project is going to take a least a year and a lot of commitment. He stated that it will be difficult for the Police Department to get a non-
management employee. Mr. Gryval stated that if the non-management employees don't work, then they need to make sure that they facilitate a high level of communication. There was further discussion of having non-management employees involved for the employees' benefit and potential changes to benefits in the future.

Mr. Mulholland stated that the Affordable Care Act has taken effect now and that they need to be careful not to get fined for not providing adequate coverage. He stated that the rates are increasing every year. Mr. Gryval stated that he doesn't want to give anyone the impression that whatever is decided on in October is going to take affect right away.

The Chair asked if the timeframes are even feasible as far as budgeting. Mr. Mulholland stated that if there is any potential of realizing any savings for 2015, they have to get them in by October 1st. Mr. Mulholland stated that they may want to look at other companies and what they have to offer.

Mrs. McKenney stated that she thinks that SVRTA will be getting things going for 2014-2015 and asked if they want to be part of that. Mr. Gryval stated that he doesn't want to wait for them but that if they can help get things going and work with them then that would be better. Mrs. McKenney stated that they would have to know if they were going to have SVRTA do the study by the end of the end and that it will cost something. Mr. Mulholland stated that this committee provides options including what SVRTA comes up with. He also stated that the committee might come up with something that SVRTA wants to get involved with.

Mr. Mulholland also stated that even with SVRTA, they can choose their own plan as each of the towns involved has different plans. There was further discussion of whether or not to have SVRTA do the study.

The Chair stated that the last time this was going, it was himself and Mr. Verville who was on the committee and that he has no problem getting it going again.

Mr. Gryval stated that in the past there was discussion of expanding and buying new buildings. He stated that he thinks that rather than trying to obtain more to think less and see if they can consolidate. The Board determined that the committee should conduct a needs analysis for space, to look for ways to save cost wise, consolidation possibilities. The Board determined to also come back next week with more specific direction for the committee.
Discussion of Changing Payroll to Electronic Transfer Only
Mr. Mulholland stated that State law prohibits them from doing that but that there are other options available. He stated that they can offer that employees receive their paystubs electronically. He also stated that they can provide employees Debit Cards for those who don’t have checking accounts. He stated that the debit cards would allow them to make purchases but if they wanted cash there would be a fee for that. He stated that he is trying to cut down on operating costs wherever they can to save from having to cut services. He stated that the Department Heads would be discussing it with their employees and see if they are interested in that.

Mr. Pelissier asked about the direct deposit pay and if they are looking to eliminate the paper check that the employees receive every week. Mr. Mulholland stated that they would be able to access the paystubs online so they won’t need the paper copies. The Chair stated that they would be able to look at their paystub before they are paid so that they will have an idea ahead of time. Mr. Mulholland suggested that the Select Board wait to make a decision on this tonight and he’ll get feedback from the Departments. The Board determined to put this on the agenda for the first week of December.
